**Mark Beckner : BizTalk 2013 EDI for Health Care: HIPAA-Compliant 834 (Enrollment) and 837 (Claims) Solutions** before purchasing it in order to gage whether or not it would be worth my time, and all praised BizTalk 2013 EDI for Health Care: HIPAA-Compliant 834 (Enrollment) and 837 (Claims) Solutions:

0 of 0 people found the following review helpful. Five StarsBy Scott AndersonExcellent Resource1 of 1 people found the following review helpful. Exactly what I was looking forBy ohwellI found BizTalk 2013 EDI for Health Care to be an excellent resource to help explain how BizTalk could benefit our organization, using a real-world process as an example. The writing style and content was very business-user friendly, not bloated with technical jargon. It is not a BizTalk "cookbook", but fit my needs perfectly.1 of 1 people found the following review helpful. Excellent!By RebalLikesThe author, Mark Beckner has an excellent way of exploring real world situations. Adapting his examples to my tasks has proven to be extremely helpful. The value received from this book is worth the price. I would recommend any of Mark's books.

BizTalk 2013 EDI for Healthcare ndash; EDI 834Enrollment Solutions eliminates the complexity anddemonstrates how to build both inbound and outbound EDI 834 processes inBizTalk server that follow the required patterns for integrations with theseexchanges. Archiving, mapping,reconstituting EDI 837 data, exception handling and advanced logging andreporting (without the need for BAM!) are all covered in enough detail to allowyou to implement your own fully functional solution. The Affordable CareAct and the requirements to integrate with state Exchanges have securedBizTalk's role with integrations within the healthcare industry. EDI 834 documents are the heart to allintegrations, dealing with enrollment and the maintenance of enrollments. In order to successfully integrate with theexchanges, companies are required to implement a number of architectural components that can be daunting and complex to work through. High-quality resources for IT professional to handle these challenges are sorely needed, and this resource has been designed to provide concise solutions.

About the AuthorMark Beckner is a technical consultant specializing in business development and enterprise application integration. He runs his own consulting firm, Inotek Consulting Group, LLC, delivering innovative solutions to large corporations and small businesses.
