American Academy of Orthopaedic Surgeons (AAOS), American College of Emergency Physicians (ACEP) : **Bloodborne And Airborne Pathogens** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bloodborne And Airborne Pathogens:

Over five million workers in health care related fields are at risk to exposure to bloodborne pathogens, such as the HIV virus and hepatitis B virus. Designed to meet the current OSHA training requirements, Bloodborne and Airborne Pathogens, Sixth Edition was designed to teach students how to prepare for potential occupational exposure to blood or other potentially infectious materials. The Sixth Edition also includes supplemental information on airborne

pathogens, such as tuberculosis, and other unusual infectious diseases.
