Three StarsBy CustomerThe case was broken.0 of 0 people found the following review helpful. Great service!By Yvonne Halei am so excited I just recieved the dvd and it is brand new, real fast on delivery.....not much more I can say! Great service!

The BLS for Healthcare Providers Course has been updated to reflect new science in the 2010 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care. This video-based, Instructor-led course teaches both single-rescuer and team basic life support skills for application in both in- and out-of-hospital settings. This course trains participants to promptly recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations and provide early use of an AED. It includes adult, child, and infant rescue techniques. This course also teaches relief of choking. BLS for Healthcare Providers teaches skills using the AHA's research-proven Practice-While-Watching technique, which allows Instructors to observe the students, provide feedback and guide the students' acquisition of skills. The course uses a recommended ratio of 6 students to 2 manikins to 1 instructor.
