**Kimberly S.G. Chang MD, Clea James, Sarah Ellen Lesko MD, Aaron B. Caughey : Blueprints Clinical Cases in Family Medicine** before purchasing it in order to gage whether or not it would be worth my time, and all praised Blueprints Clinical Cases in Family Medicine:

Blueprints Clinical Cases in Family Medicine, Second Edition offers third- and fourth-year medical students valuable preparation for clerkships and the USMLE Steps 2 and 3. The book features 60 clinical cases, 10 new to this edition and 50 revised and updated from the first edition. Each case consists of a clinical vignette followed by thought questions and discussion, and ends with a question-and-answer review and a listing of suggested additional reading. A question-and-answer section at the end of the book contains 100 USMLE-format multiple-choice questions and detailed answer explanations.
