Mary de Chesnay, Barbara A. Anderson : Caring For The Vulnerable: Perspectives in Nursing Theory, Practice, and Research before purchasing it in order to gage whether or not it would be worth my time, and all praised Caring For The Vulnerable: Perspectives in Nursing Theory, Practice, and Research:

0 of 0 people found the following review helpful. Worked for my class.By Johnny AyscueWorked great for my classes even if it was a previous edition.1 of 1 people found the following review helpful. AmazingBy Janet Thurston DNP CNM FNP-BCThis is a rare text relevant to all health care providers. There has never been a text more influential to the way we think in a cross cultural perception of caring for others, to know what it means to be vulnerable and what it means to make a improve the quality of lives of others.0 of 0 people found the following review helpful. great conditionBy Gypsyeyes1025arrived well on time, in great condition, no problems. Needed it for my nursing classes

and have used it for a few others. Makes it interesting while being forced to read it.

Within an expanding field of study in both undergraduate and graduate nursing curricula, *Caring for the Vulnerable* explores vulnerability from the perspective of individuals, groups, communities, and populations, and addresses the implication of that vulnerability for nurses, nursing, and nursing care. This new edition presents a basic structure for caring for the vulnerable, and forms a theoretical perspective on caring for doing so within a cultural context, with the ultimate goal of providing culturally competent care. Theoretical and research chapters advance to chapters offering learning experiences for nursing students and practitioners. As nurses are the crucial link between those who are vulnerable, and those with access to solutions, it provides ideas for how nurses might advocate for the vulnerable on a policy level. Written specifically for nurses, by nurses, *Caring for the Vulnerable* is a timely and necessary response to the culturally diverse vulnerable populations for whom nurses must provide appropriate and precise care.
