**Kathryn Kalanick : Case Studies for Medical Assisting** before purchasing it in order to gage whether or not it would be worth my time, and all praised Case Studies for Medical Assisting:

0 of 0 people found the following review helpful. Five StarsBy Julie QuinnThis book is awesome. I am using it to create activities in the class I teach.0 of 0 people found the following review helpful. Awesome!By SweetMrsKAs a 15 year Veteran MA, this book covered everything that an MA should be familiar with. Great for entry level and beyond!

CASE STUDIES FOR MEDICAL ASSISTING, 1ST EDITION provides scripted scenarios specifically created to enrich the classroom experience. Instructors can create entire lessons through the hands-on application of all medical assisting skills, and not just in the perfect "textbook" ideal setting. Students gain all the real-life skills needed for the job--in the classroom.

"This material is so 'real world.' The case studies are all interesting, engaging and realistic. It is so hard to make the classroom simulate the clinical office...this definitely will give a punch of reality." Alice Macomber, RN, RMA, CPI, AHI, RPT, BXO Medical Assisting Instructor/Coordinator Keiser University Port Saint Lucie, Florida

"The idea is tremendous." Lawanna Lambert, LVN Instructor, Externship Coordinator American Career College Odessa, TX

About the Author Kathryn Kalanick, CMA (AAMA), NCPT, CPI has been a post-secondary educator for 28 years. She currently owns and operates Educational Pathways in Utah, and works as an author, consultant, invited speaker, and curriculum developer. Prior to starting her own company, she was the Director of Education for Career Academy in Anchorage, Alaska. Ms. Kalanick has served as a member of the NCCT's Medical Assistant and Phlebotomy Examination review teams, Delmar Cengage Learning's Medical Assisting Advisory Board, and she continues to serve as a member of other educational advisory boards nationwide. Ms. Kalanick has been instrumental in developing numerous nationally-accredited Allied Health Care curricula for both on-ground and on-line programs.
