Terry Des Jardins MEd RRT, George G. Burton MD FACP FCCP FAARC : Case Studies T/A Clinical Manifestation and Assessment of Respiratory Disease before purchasing it in order to gauge whether or not it would be worth my time, and all praised Case Studies T/A Clinical Manifestation and Assessment of Respiratory Disease:

0 of 0 people found the following review helpful. Love it By Customer Great book for an RT. 0 of 1 people found the following review helpful. Thank you By D Thanks for this book, it has helped me immensely in my studies!! It arrived on time and has been a staple in my book work!! So glad I bought it!! 0 of 2 people found the following review helpful. review By Manuel Ramos The book I received was in decent condition but it had writing inside of it

Focusing on assessment through therapist-driven protocols, this valuable tool provides an overview of the assessment process and fundamentals needed for success. It offers discussion of the top five treatment protocols: oxygen,

hyperinflation , bronchial hygiene and bronchodilator therapies, as well as mechanical ventilation. Using a case study approach, students learn to manage an entire case from beginning to end. Each time they assess the patient, they use the SOAP format: Subjective, Objective, Assessment, and Plan reasoning, giving them practice in documenting history and developing care plans.

About the Author Terry Des Jardins, MEd, RRT; George G. Burton, MD, FACP, FCCP, Medical Director, Respiratory Services, Kettering Medical Center, Kettering, OH
