Surendra Sarnikar : Cases on Healthcare Information Technology for Patient Care Management before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cases on Healthcare Information Technology for Patient Care Management:

Health care organizations have made investments in health information technologies such as electronic health records, health information exchanges, and many more, which have increased the importance of Health Information Technology studies. Cases on Healthcare Information Technology for Patient Care Management highlights the importance of understanding the potential challenges and lessons learned from past technology implementations. This comprehensive collection of case studies aims to help improve the understanding of the process as well as challenges faced and lessons learned through implementation of health information technologies.
