Mark L. Batshaw : Children with Disabilities before purchasing it in order to gage whether or not it would be worth my time, and all praised Children with Disabilities:

0 of 0 people found the following review helpful. this book is a treasure chest of informationBy miaI am so thankful for this book. I first came across the 3rd edition of this book just last year, given to me by a doctor friend who thought it might be helpful. And it sure has been. I'm a special education teacher from the states, now a sp ed consultant in a developing country where sp ed is in the pioneering stages. I am dealing with disabilities I never saw in the states, so this book is very helpful in my on-going education. I just got the 6th edition and am eager to see what's new (the 3rd edition was written in the early 90's!).The book is well written and organized, so that it is a valuable resource whether I am studying about a certain disability or just want to look up certain information.2 of 2 people found the following

review helpful. A valuable resource for parents of children with disabilities and educators
By Sonja Hanchar
This book is fairly comprehensive without being too technical. While it is impossible to cover the entire realm of disabilities, it serves its purpose well and is quite informative.
0 of 0 people found the following review helpful. but good book.
By Lynn Witt
The book has been helping me with my class very well. Delivered after it was guaranteed though, that was frustrating, but good book.

New Edition is available ISBN9781598571943

It is rare to find a book as comprehensive and yet as easy to read as the fourth edition of this much admired text... --
Developmental Medicine Child Neurology
Once again, Mark Batshaw has provided us with a complete and thorough compendium of useful information... --Disability Studies Quarterly
About the Author
Dr. Batshaw is Professor and Chairman of Pediatrics at George Washington University School of Medicine. He is Chief Academic Officer at the Children's National Medical Center in Washington, D.C. Dr. Batshaw's experience includes 25 years of treating children with developmental disabilities. While on the faculty at Johns Hopkins University, Dr. Batshaw received the Alexander Schaffer Teaching Award in Pediatrics. He has published more than 70 articles in highly respected journals. In addition to serving on the editorial advisory board for Exceptional Parent, he serves as the Editor-in-Chief of the journal Mental Retardation and Developmental Disabilities Research. He is a fellow of the American Academy of Pediatrics.
