Dr. John DeWitt : Chiropractic Care for Clearer Vision: Backed by Actual Case Studies (Clearer Vision Construct Series) (Volume 3) before purchasing it in order to gage whether or not it would be worth my time, and all praised Chiropractic Care for Clearer Vision: Backed by Actual Case Studies (Clearer Vision Construct Series) (Volume 3):

2 of 4 people found the following review helpful. Chiropractic is dangerous. You can improve your vision naturally, WITHOUT chiropractic. In special cases; it can heal.)By Mary I. OliverI was injured by a chiropractor in 2009. 3 times before that by 3 different chiropractors. Vertigo, in hospital 3X. Partial blindness, wandering eye, astigmatism and many other problems. I stayed away from chiropractic after a honest one gave me 2 treatments to correct all the misaligned bones, pinched nerves... that the dishonest chiropractors caused. Before that and from that date I have used;Medical doctors, physical therapy, movement, massage and alternatives to chiropractic. I also used the TRUE Bates Method to completely correct the eyesight.See YouTube videos, mine and others by actor Kevin Sorbo and thousands of people that have been injured by chiropractic.In some cases chiropractic can help heal the body; after being in a car accident..., but I prefer chiropractic be in the hands of a medical doctor. Most chiropractors will try to sell you endless monthly, some weekly treatments for life; endlessly twisting the neck, hips... back. It wears down the cartilage, it is risky, can rip blood vessels, damage nerves! People have had stroke, died from the treatment, especially the neck and shoulder level chiropractic twisting, popping of the spine.In the past, about 2 years ago Dr. Dewitt used many pictures in my books to make videos on YouTube and in his school. He did this without my permission. It took a long time trying to get him to stop this! He refused. I finally had to get a lawyer and contact YouTube management. YouTube helped me and removed the videos. (I first downloaded and saved for evidence the videos, along with the many emails, phone calls to Dr. Dewitt and his boss asking them to stop using my work. No reply, then only excuses. Very deceitful.)Now in 2015, about 2 years later; I see Dr. Dewitt has used my pictures again, but he is sneaking past copyright by covering the pictures with cartoon drawings pasted over the faces, cloths... My original text description is on some pictures.He knows I was injured by a chiropractor and I told him many times; I DO NOT endorse chiropractic. I do NOT want it associated with Natural Vision practice. And to please; Do NOT use my pictures. He is also stealing other content, text that is on the pictures.To Dr. Dewitt; Stop using the Natural Vision practice to sell chiropractic. Natural Vision students DO NOT need chiropractic to improve their vision. Chiropractic is risky, can harm people.Dr. Dewitt has also copied methods from other teachers books, websites; many who teach wrong, resulting in incorrect methods being added to his book. He also has not studied my books or Dr. Bates books well. He mainly just studies, copies parts of them.I do not endorse this, I do not approve of this.I wonder if his publisher can look under his pictures? See the originals he stole from my book?I have contacted Dr. Dewitt on YouTube after I recently saw his new videos and notice they contain my pictures, but are altered so he can avoid copyright infringement; he answers under his bosses name in a private message only and gives me the same old lies, professional sounding replies but are really evasions.I let some of my students, fellow TRUE Bates Method teachers use my pictures, some content.I will not allow use of my work by someone that steals it, never asks permission and uses my work to sell chiropractic.These are grown men, acting like spoiled children.Buyer beware; if you have a spine problem; try movement, massage, physical therapy and other safer methods.There are alternatives to chiropractic.If your vision is impaired; avoid chiropractic.Use the True Bates Method. Free on the internet. It is safe.I give 3 stars for my reviews of 2 of Dr. DeWitt's books because in some cases chiropractic has cured the body. A famous story is of a lady that went blind. She went to the Edgar Cayce library of cures in Virginia; she found out that a bone in her neck, I think it was C-1, was out of alignment. A doctor put it back in place. Her vision immediately restored. This and vertebrae near it are main vertebra with nerves, blood vessels traveling to the brain, eyes, eye muscles. Many people have had strokes, died from this and other neck, upper spine (T1... area) vertebrae being moved by chiropractors. In this case the lady chose; blindness or take a chance on ONE chiropractic treatment. Her result was great. The vision restored.I think doctor DeWitt could be a very good teacher; if he would draw his own pictures, FULLY study the TRUE Bates Method. Avoid the unnatural methods (eye rotations...) and stop using Natural Vision, the Bates Method to sell chiropractic.I appreciate him thinking my pictures... are good enough to use in his school, books. But I must protect my copyright. We give free help to the blind, low vision people, charities, guide dog schools and our books help to provide this.Dr. Dewitt does teach a lot of correct and helpful things in the book. He seems to have a passion for the method.We need doctors to come forth and teach this method. Its been hidden by the MD's, corrupt eye doctors for over 100 years; because it works! So; I respect and thank Dr. Dewitt for teaching the method.I am willing to give him some free video lessons in 2016 if he likes. My website has a pdf listing all the unnatural methods corrupt-unnatural teachers sell; So you know who is good, who is teaching wrong, what to avoid.I had the same problem when I started in this profession in 1975; weeding out the bad guys. So many! Choose with experience.

With over 20 research studies, Chiropractic Care for Clearer Vision provides the evidence showing how vision can be corrected with chiropractic adjustments. This is the 3rd in the Clearer Vision Construct series with the first covering unique exercises for correcting vision and the second discussing the 20 foods that can improve vision.
