Dorland, Sharon Rhodes RHIT CPC CMT : Dorland's Cardiology Word Book for Medical Transcriptionist, 1e
before purchasing it in order to gage whether or not it would be worth my time, and all praised Dorland's Cardiology

Word Book for Medical Transcriptionist, 1e:

One of the specialized wordbooks in the Dorland series, Dorlands Cardiology Wordbook gives the transcriptionist a user-friendly format for finding the spelling of a word based on its sound and/or context. This reference has been created specifically to be an effective, time-saving tool in transcribing, editing, and proofreading medical documents in the area of cardiology. It consists of two sections: Cardiology Terms, a straightforward and easy-to-use list of words; and Resources, which includes appendices and additional information specific to cardiology and to medical transcribing. Compiled and edited by practising medical transcriptionists who are experts in the field of cardiology ensuring all terminology is current and relevant. Part of the Dorlands series of wordbooks enabling the transcriptionist to build a collection of reliable, specialized titles covering a range of subject areas. Contains cross referencing, plates, sample reports and frequently used drug lists - not just a wordbook but an actual resource book for beginners as well as seasoned transcriptionists. Quick and easy term finding with colour index and tabs.
