Cam Donaldson, Karen Gerard, Stephen Jan, Craig Mitton, Virginia Wiseman : Economics of Health Care Financing: The Visible Hand before purchasing it in order to gage whether or not it would be worth my time, and all praised Economics of Health Care Financing: The Visible Hand:

This new edition examines the economics of health care systems in a non-technical manner. It is written in a highly

accessible manner for economists and non-economists alike. It is very timely and includes the latest evidence of health care reforms and their implications from a number of countries with different systems.
