Of course I also have a great instructor.Update;My class is now in Chapter 6 of this book. I have really been enjoying the class and using the CD, but noticed in the lastcouple of chapters, some of the answers are wrong in the Chapter exercises on the CD! They can't distinguish between an A-Fiband Flutter!?! This is very frustrating and unacceptable for educational materials to be wrong. I'm very disappointed in McGraw-Hill,this isn't the fist time I've found errors in McGraw-Hill materials. Just beware, you don't want to learn this information

incorrectly. Save your money and buy it without the CD. 1 of 1 people found the following review helpful. Best EKG Technician for National Exam Preparation Administered by National Certification Career Association By JIMMYi both this book additional to two other books for my national certification exam administered by national certification career association ncca exam to be a Certified EKG Technician, and this book was it, it has everything what we need to study, the interpretation the clinical competency, it a 5 star book for national exam administered by NCCA. not on the multiple choice but the practical exam was also very good after the reviewed this book, EXCELLENT BOOK ALL IN ONE EKG BOOK 1 of 1 people found the following review helpful. Great Tool to have !!!! By E. Student Book is awesome, very easy to understand. It connects you better with the course. As it challenges you with the chapter review questions, it makes it fun with the CD activities. You also learn how to interact with patients and troubleshoot situations that may arise. The CD is computer friendly; for every chapter there is a lot of exercises to do. Keeping track of your progress is also a great tool it has. I would recommend this book for any ECG Technicians. It's a great investment for now and future. Thank you Emma

Electrocardiography, 3e with Student CD (Booth, Electrocardiography for Health Care Personnel)

About the Author Kathryn A. Booth, RN-BSN, RMA (AMT), RPT, CPhT, MS is a registered nurse (RN) with a masters degree in education as well as certifications in phlebotomy, pharmacy tech, and medical assisting. She is an author, an educator, and a consultant for Total Care Programming, Inc. She has over 30 years of teaching, nursing, and healthcare experience that spans five states. As an educator, Kathy has been awarded the teacher of the year in three states where she taught various health sciences, including medical assisting in both a classroom and an online capacity. Kathy serves on the AMT Examinations, Qualifications, and Standards committee, as well as the advisory board for two educational institutions. She stays current through working at various practice settings as well as obtaining and maintaining certifications. Her larger goal is to develop up-to-date, dynamic healthcare educational materials to assist her and other educators and to promote healthcare professions. In addition, Kathy enjoys presenting innovative new learning solutions for the changing healthcare and educational landscape to her fellow professionals nationwide.
