Wayne A. Secord, Suzanne E. Boyce, JoAnn S. Donohue, Robert A. Fox, Richard E. Shine : Eliciting Sounds Software: Techniques and Strategies for Clinicians before purchasing it in order to gage whether or not it would be worth my time, and all praised Eliciting Sounds Software: Techniques and Strategies for Clinicians:

5 of 5 people found the following review helpful. Great digital version of the 2nd edition book By EllieBellie This is a wonderful digital version of the printed 2nd edition book Eliciting Sounds by Secord, et al. It is almost exactly the

same as the printed version, so I would recommend either/or and not both. I prefer the paper copy because it's easier to get to during therapy. This software has some added features - Dr. Robert Fox gives examples of different ways to say each sound and narrates some of the sections.0 of 0 people found the following review helpful. This did not properly install on my laptop! It ...By GabrielaThis did not properly install on my Mac! It said it installed but when I click on it, it is just blank. I have all the updated requirements and yet it wouldn't even open the disc/app version. I'm returning this!1 of 1 people found the following review helpful. One StarBy Nea HanscombDid not work on my Macs even though it is advertised so.

Eliciting Sounds Software elevates the best-selling book, *ELICITING SOUNDS: TECHNIQUES AND STRATEGIES FOR CLINICIANS*, 2nd ed., by Dr. Wayne A. Secord, to a new level by offering a technology-based treatment preparation and planning tool for speech-language pathologists. The software provides step-by-step instruction for eliciting consonant and vowel sounds, including challenging phonemes like /r/, /s/, and /z/. The menu organization allows you to quickly locate the target sound, production characteristics, and accompanying techniques. Detailed visuals present the proper mouth position for each sound, and audio examples of common contextual variants are provided. Printable handouts allow you to customize your treatment plans to identify techniques to use with particular clients and highlight favorite techniques for future reference.

About the AuthorWayne A. Secord, Ph.D., was recently appointed by the University of Central Florida as the College of Health and Public Affairs Distinguished Service Professor in the Department of Communicative Disorders. He is also currently the Director of the National Center for Speech-Language-Pathology in Schools (NCSLPs) in Cincinnati, OH. The NCSLPs is a joint project of the University of Cincinnati (UC) and Miami University (MU). It is supported by a Project of National Significance Grant from the US Department of Education. Dr. Secord served as the Coordinator of School Speech-Language Pathology at The Ohio State University (OSU) from 1989 to 1995 and Chair of the Department of Communication Sciences and Disorders at Northern Arizona University (NAU) from 1995 to 2000. He is a Fellow of the Ohio Speech Hearing Association (OSHA) and the American Speech-Language-Hearing Association (ASHA), and has received awards for outstanding service or clinical achievement from UC, OSU, OSHA, the ASHA Foundation, and the Speech-Language-Hearing Association of Western New York (SHAWNY). He has authored or co-authored numerous articles, books, tests and intervention programs on assessment and treatment of speech and language disorders, and served as the Editor of *Language, Speech, and Hearing Services in Schools*, a major ASHA journal, from 1992 to 1998. A former school speech-language pathologist, Dr. Secord is a frequent conference presenter and a nationally recognized expert on clinical and educational assessment and the delivery of school-based services for children with special needs.
