More Than One Reason To Buy This BookBy thirdtwinInteresting even to the laymen as an overview of how emergencies are handled and what techniques are used and why. Even if you don't have time to take the class you can still read the book- whether it's for research- concern over your own health or just to add to your enjoyment of pop culture so you can see all the silly flaws on tv medical shows. And as we all know when it comes to your personal health and safety you can never be too knowledgeable.2 of 2 people found the following review helpful. Good wholistically, bad for referenceBy Julius WalkerWhile the book is very informative, the organization seems haphazard. An important distinction to make is haphazard does not mean

incomplete, it means that searching for information about a subject when the key terms are not intuitive is very hard. For example, terms and concepts related to perfusion is dispersed throughout the book in separate topics, each one only giving a piece of the puzzle of what perfusion is, details, and how it goes wrong. So understanding perfusion by looking at a particular section is not possible. All in all this is a good book because of the diagrams and congenial language. 0 of 0 people found the following review helpful. BRADY EMERGENCY CARE MANUAL IS VERY GOOD By Donald E. White Previous edition provided better diagrams. However, this is the current version taught by the City of Alexandria VA Fire Department. This version emphasizes critical thinking scenarios. Attached CD was a nice plus in this edition. Don White, FF/EMT, Alexandria Volunteer Fire Department, Alexandria, VA

This package contains the following components: 013500523X / 9780135005231 Emergency Care 0135008638 / 9780135008638 Workbook for Emergency Care

About the Author Daniel Limmer (Author). Dan Limmer, EMT-P, has been involved in EMS for over 25 years. He remains active as a paramedic with Kennebunk Fire Rescue in Kennebunk, Maine, and the Kennebunkport EMS (KEMS) in Kennebunkport, Maine. A passionate educator, Dan teaches EMT and paramedic courses at the Southern Maine Community College in South Portland, Maine, and has taught at the George Washington University in Washington, DC and the Hudson Valley Community College in Troy, New York. He is a charter member of the National Association of EMS Educators and a member of the National Association of EMTs (NAEMT) for which he serves on the Advanced Medical Life Support Committee. Dan was formerly involved in law enforcement, beginning as a dispatcher and retiring as a police officer in Colonie, New York, where he received three command recognition awards as well as the distinguished service award (Officer of the Year) in 1987. During his 20-year law enforcement career he served in the communications, patrol, juvenile, narcotics, and training units. In addition to authoring several EMS journal articles, Dan is co-author of a number of EMS textbooks for Brady including First Responder: A Skills Approach, Essentials of Emergency Care, Advanced Medical Life Support, the military and fire service editions of Emergency Care, and others. He speaks frequently at regional, state, and national EMS conferences.

Michael F O'Keefe (Author). Mike O'Keefe, MS, EMT-P, became the Vermont EMS State Training Coordinator in 1989. He has a Master's degree in biostatistics and was an EMT-Intermediate for 16 years before becoming a paramedic 10 years ago. Mike was chosen to participate in the development of all four U.S. Department of Transportation National Standard EMS Curricula (for First Responders, EMT-Basics, EMT-Intermediates, and EMT-Paramedics). He was also on the steering committee that developed the Geriatric Education for Emergency Medical Services (GEMS) course for the American Geriatrics Society and coauthored a chapter of the textbook for that course. Mike is co-author of the Brady text Essentials of Emergency Care and is a contributing writer to the Brady text Paramedic Care: Principles Practice. He is very interested in promoting EMS research, particularly in rural areas. Mike is active as a volunteer EMS provider in northwestern Vermont and is a speaker at EMS conferences.

Edward T. Dickinson (Medical Editor). Edward T. Dickinson, MD, NREMT-P, FACEP, is currently Assistant Professor and Director of EMS Field Operations in the Department of Emergency Medicine of the University of Pennsylvania School of Medicine in Philadelphia. He is Medical Director of the Malvern Fire Company, the Berwyn Fire Company, and the Township of Haverford paramedics in Pennsylvania. He is a residency-trained, board-certified emergency medicine physician who is a Fellow of the American College of Emergency Physicians. Dr. Dickinson began his career in emergency services in 1979 as a firefighter-EMT in upstate New York. He has remained active in fire service and EMS for the past 25 years. He frequently rides with EMS units and has maintained his certification as a National Registry EMT-Paramedic. He has served as medical editor for numerous Brady EMT-B and First Responder texts and is the author of Fire Service Emergency Care and co-author of Emergency Care, Fire Service Edition, and Emergency Incident Rehabilitation. He is co-editor of ALS Case Studies in Emergency Care.
