Douglas J. Casa, Rebecca L. Stearns : Emergency Management For Sport And Physical Activity before purchasing it in order to gage whether or not it would be worth my time, and all praised Emergency Management For Sport And Physical Activity:

Includes Forward by National Football League Commissioner, Roger Goodell Written by experts in the field, Emergency Management for Sport and Physical Activity is designed to educate non-Athletic Training majors on the ways in which to prevent sudden death during sport. Often these non-medical professionals are the first on the scene and must, at times, serve the vital role of first responder and immediately act on behalf of athletes lives. Due to the rigorous training and conditioning programs that are being undertaken by athletes, effective emergency management has become a growing concern. This text includes the recently published positioning statement released by the National Athletic Trainers Association (NATA), which address many of the important topics discussed throughout the

book. It goes on to address the associations task force document on Preventing Sudden Death During Conditioning Sessions. Key Features: Web-based scenarios are included for each chapterIncludes case studies, feature boxes, and emergency action plansFirst aid methods and techniques are included as an appendixInclude position statements put forth by the National Athletic Trainers Association (NATA)
