**Chris Le Baudour, J. David Bergeron, Gloria Bizjak, Keith Wesley : Emergency Medical Responder: First on Scene (9th Edition) (Paramedic Care)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Emergency Medical Responder: First on Scene (9th Edition) (Paramedic Care):

0 of 0 people found the following review helpful. It does the job!By tlh777This booked did the job it was supposed to. It helped to get my husband through his first responders class. He said the work book for it was a little complicated. Working past that, he was able to use this to get information he needed to pass the class. To be fair, the class itself seem to little overcomplicated to both of us.4 of 4 people found the following review helpful. okay bookBy P. L SliceI think that the arrangement of the chapters is really bad. This plus the support from Pearson for educators makes it difficult to teach. They've attempted to take the First Responder book and change it to Emergency Medical Responder

and the support is somewhat out of date. Maybe they are still working on it, but I do have to fault their arrangement of chapters. This is the book we are required to use, therefore I just mold the teaching to make it more "teachable"....Addition.... This book is still just as lacking and to boot, the price is now higher.0 of 0 people found the following review helpful. Five StarsBy muhktar76Great book, easy to use. The terminology definitions and index are easy to use.

The leader in the field, Emergency Medical Responder, Ninth Edition, provides clear first responder-level training for fire service, emergency, law enforcement, military, civil, and industrial personnel. The new ninth edition retains many successful features from previous editions and includes new topics and concepts that have recently become part of most Emergency Medical Responder programs. The foundation of this text is the new National Emergency Medical Services Education Standards for Emergency Medical Responder, and it also includes the 2010 American Heart Association guidelines for Cardiopulmonary Resuscitation and First Aid.
