From Ingramcontent : Emergency Radiology COFFEE Case Book: Case-Oriented Fast Focused Effective Education before purchasing it in order to gage whether or not it would be worth my time, and all praised Emergency Radiology COFFEE Case Book: Case-Oriented Fast Focused Effective Education:

Emergency radiology requires consistent, timely, and accurate imaging interpretation with the rapid application of clinical knowledge across many areas of radiology practice that have traditionally been fragmented by organ system or modality divisions. This text unifies this body of knowledge into an educational resource capturing the core

competencies required of an emergency radiologist. This book of 85 index cases is organized by clinical presentations that simulate real-life radiology practice in the emergency department. Companion cases spanning the differential diagnoses and spectrum of disease provide hundreds more examples for a fast, focused and effective education we like to call COFFEE (Case-Oriented Fast Focused Effective Education). This text can serve as a "go to" resource for radiologists, as well as any other physicians working in the emergency department. It will be an excellent companion for radiologists preparing for initial board certification or re-certification by the American Board of Radiology.

About the Author Bharti Khurana MD is Director of the Emergency Radiology Fellowship at Brigham and Women's Hospital and Assistant Professor of Radiology at Harvard Medical School, Massachusetts. Jacob Mandell MD is a Fellow in Musculoskeletal Imaging and Intervention, class of 2014, and graduated resident in Diagnostic Radiology at Brigham and Women's Hospital and Harvard Medical School, Massachusetts. Asha Sarma MD is a Diagnostic Radiology Chief Resident at Brigham and Women's Hospital and Harvard Medical School, Massachusetts. Stephen Ledbetter MD MPH is Chief of Radiology at Brigham and Women's Faulkner Hospital, former Section Chief of Emergency Radiology at Brigham and Women's Hospital and Assistant Professor of Radiology at Harvard Medical School, Massachusetts.
