Required text in some college level emergency and disaster management courses. By Jeri Zerr Emergency Response and Emergency Management Law was a required textbook for a college level course in Emergency and Disaster Management I was taking online with WCU while I was deployed to a major tornado disaster on behalf of DHS/FEMA. The text thoroughly covered the material, was easy to grasp and helped me to achieve my

goals. The law cases presented are very relevant and appropriate for Professionals in Emergency Management. I highly recommend Emergency Response and Emergency Management Law to others who want a solid foundation in emergency and disaster management as a way to enhance and a means to further their professional career. 0 of 0 people found the following review helpful. Five Stars By JJMPH91A must for any disaster volunteer nut like me for 45 years now.
