For all responders preparing for EMT-Basic certification, as well as EMT-Basic responders that are preparing for re-certification. Practice Online! This new test preparation system allows users to practice exam-style questions in the same manner that they will take their actual certification exam. Four 150-question tests contain questions across the major content areas found in state and national exams including: airway breathing, cardiology, trauma, medical, obstetrics pediatrics, and operations. In addition, each of the 6 content areas provide 2 25-question tests. All tests have rationales and are re-inforced with text, photos, illustrations, or video clips.
