Kristin L. Nelson : Emts (Pull Ahead Books) (Pull Ahead Books (Paperback)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Emts (Pull Ahead Books) (Pull Ahead Books (Paperback)):

0 of 0 people found the following review helpful. Great book on EMTs for preschoolersBy NonfictionThis is an age-appropriate book on EMTs for 3-5 year olds. Some of the photos are perhaps not the of the best quality but the are do provide good images of what EMTs do without containing scary images of people who look to be in a great amount of pain as do some other EMT books for this age level. The text is simple and informative.

Oh No! Theres been a car accident! What should we do? Call an ambulance! EMTs drive the ambulance to an emergency. They put the patient on a stretcher and take care of them while they rush them to the hospital.
