Donald G. Pitts OD PhD : Environmental Vision: Interactions of the Eye, Vision, and the Environment, 1e before purchasing it in order to gauge whether or not it would be worth my time, and all praised Environmental Vision: Interactions of the Eye, Vision, and the Environment, 1e:

Student clinicians will be guided through the assessment process -- how to make correct diagnoses of environmental problems and needs and determining appropriate treatments to maximize patients' visual performance in their environment.* - The first definitive text on vision and the environment. * - Covering topics such as lighting and radiation, the effects of radiant energy upon the eye, lasers in industrial and medical applications, and effects of video

display terminals on vision. * - Provides tools for learning how to assess the environment and its affect on the eye and vision.

good reference book, some material is too dated, some chapters are too scientific for practicing od's
