Dr. Kiran Macha, Dr. John P. McDonough : Epidemiology For Advanced Nursing Practice before purchasing it in order to gage whether or not it would be worth my time, and all praised Epidemiology For Advanced Nursing Practice:

1 of 1 people found the following review helpful. Ok Where is the electronic version?!By LadyTrekThe book is ok. But it really needs to be available electronically!0 of 0 people found the following review helpful. Four StarsBy Maryann C. MatthewsInteresting. Although the chapters are on the shorter side, it can be difficult to stay focused2 of 2 people found the following review helpful. Great book!By SusanI enjoy epidemiology, and this book is a very good text for nursing students. I learned a lot of information that I had never known during this course and while reading this book.

Epidemiology for Advanced Nursing Practice guides graduate-level nursing students to understand the basic concepts

of epidemiology while gaining and applying statistical conceptual skills. Focusing on the importance of disease prevention and community-centered migration, this text helps students expand their knowledge base while enhancing practical application skills and stimulating research interests. Designed to prepare advanced practice nursing students to meet the American Association of Colleges of Nursing (AACN) for Doctor of Nursing Practice (DNP) standards, this text features expert insights, objectives, critical questions, and references. Topics include the role of epidemiology and statistics in advanced nursing practice, study designs and outcomes, emerging infectious diseases, genetic and environmental epidemiology, the role of culture, nursing in pandemics and emergency preparedness, and legal and ethical issues.

About the Author Dr. George E. MacKinnon III, is presently the Vice President of Academic Affairs of the American Association of Colleges of Pharmacy in Alexandria, VA. Prior to joining AACP he was Director of Global Health Economics Outcomes Research at the headquarters of Abbott Laboratories. Dr. MacKinnon taught one of the first required courses in health economics and outcomes assessment in an academic pharmacy program in the 1990 s. He also assisted in the development of numerous pharmacist-medical practice initiatives as well as several post-graduate residency training programs in various practice settings over the years. He served as the Founding Editor of InetCE SM, an Internet-based continuing education publication from 1996-2006, has authored over 60 publications and has written three book chapters in texts related to medication use.
