Gary White : Equipment Theory for Respiratory Care (Respiratory Care Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Equipment Theory for Respiratory Care (Respiratory Care Series):

The second edition of this reader friendly text remains as the only one in its field describing how to assemble and troubleshoot the equipment used in the field of respiratory care. The book concentrates on the theory behind the various types of equipment and includes rationales that explain the necessity and function of the equipment in practice.

About the AuthorGary White is the Director of Clinical Education at Spokane Community College in Spokane Washington.
