1 of 1 people found the following review helpful. Didn't Help. Didn't Hurt. By Book Worm This book didn't help me much- if at all. However, it was a course requirement, so I had to purchase it along with the textbook. Some of the practice problems were well-written and easy to follow. Others were confusing. 1 of 1 people found the following review helpful. This Book Will Get Your Neurotransmitters To Firing By Gloria Jones This author drew me into the art of understanding the importance of understanding statistics and how those statistics can make or break a study of research. 0 of 0 people found the following review helpful. Good By Dr. Saiyid M. Maududi I thought it was new (current) edition but it was old edition. Since I purchase I did not want to return it. It's ok.
