Item arrived in timely manner By Eva Drinkwine The book was full of post its, written and highlighted in (throughout the entire text). For the price I have no problem with the defects, all pages are there and I am still able to read the text. Of course I have to try and block out all the distracting writings and highlighting in the text but that is fine. The book arrived in a timely manner within 7-10 days so all in all I recommend the seller. 7 of 7 people found the following review helpful. Great Resource By Rockies Smith This is one of the best textbooks I have encountered for the beginning family therapist. It offers great theoretical explanation with helpful application to everyday practice. I would recommend it to anyone!
