Stephen J. Williams : Essentials of Health Services (Delmar Series in Health Services Administration) before purchasing it in order to gage whether or not it would be worth my time, and all praised Essentials of Health Services (Delmar Series in Health Services Administration):

0 of 0 people found the following review helpful. Short Read :)By Selene CardenasVery simple, and can be read in one day. Came in an OK condition, some highlights, scribbles, and underlining, but was easy to read.0 of 0 people found the following review helpful. Five StarsBy griceldaas described1 of 1 people found the following review helpful. Essentials of Health ServicesBy Nula FalesFor a very small book containing 191 pages, the price was way out of line.

Our national health care system is one of the nation's most important components. What we spend and invest in health care resources and services ultimately improves how long and how well we live. As costs and structure continue to increase in complexity, it is now more important than ever to understand how the system functions - whether you are a consumer or employed by the system. Now in its third successful edition, Essentials of Health Services gives you the

most straightforward, uncomplicated explanation of how our health care system is structured and how it functions so you can better understand, use, and enhance the services that directly affect your life.

PART ONE: AN OVERVIEW OF HEALTH CARE IN THE UNITED STATES 1 The Big Picture, 2 The Underlying Basis for Health Services Utilization, 3 Access to Health Care Services **PART TWO: THE RESOURCES FOR PROVIDING CARE** 4 Ambulatory Health Services: Backbone of the System, 5 Public Health Services, 6 Hospitals and Health Systems, 7 Mental and Behavioral Health Services, 8 Long-Term Care Services, 9 The People Who Provide Health Care Services, 10 The Pharmaceutical Industry **PART THREE: PAYING FOR, MANAGING, CONTROLLING, AND EVALUATING THE SYSTEM** 11 Paying for Health Care, 12 Managed Care and the Reorganization of Health Services, 13 Regulating and Planning for the System, 14 Quality of Care, 15 National Health Policy

About the Author Stephen Williams is the series editor for our Health Services Administration list. He is also a Professor of Public Health and head of the Division of Health Services Administration in the Graduate School of Public Health at San Diego State University in Dan Diego, California.
