Lanning B. Kline MD, Frank J. Bajandas MD : Neuro-Ophthalmology Review Manual before purchasing it in order to gage whether or not it would be worth my time, and all praised Neuro-Ophthalmology Review Manual:

0 of 0 people found the following review helpful. Good book, five stars. By H Good book, five stars. Excellent resource. 0 of 0 people found the following review helpful. Finally! By nicole Just throw out the basic series neuro book (if you are an ophthalmology resident) and get this. Loved it and would buy again. 0 of 0 people found the following review helpful. good one ! By L. Harvey you need this one. loaded with info, small, current and high yield. the price makes the value exceptional. it does fall short on the explanation side, so it is not a reference text in any way but it is a

great review manual.

Almost 30 years since it was first published, Neuro-Ophthalmology Review Manual by Drs. Lanning B. Kline and Frank J. Bajandas is now available in an updated Sixth Edition. With new information and effective exercises, this easy-to-read reference addresses the clinical neuro-ophthalmology principles used in everyday practice. Neuro-Ophthalmology Review Manual, Sixth Edition's use of illustrations, anatomy diagrams, and tables allow for a user-friendly format and quick access to valuable information. This sixth edition includes 28 tables; 138 figures, including 33 hypothetical cases to test the reader in diagnosing visual field problems; and updated and expanded references for all chapters. New to this Sixth Edition: Revised chapter on supranuclear and internuclear gaze pathways Revised chapter on headache Updated and expanded chapter on visual fields Updated and expanded chapter on nystagmus and related ocular oscillations Topics addressed inside include: Ocular motor cranial nerve syndromes Cavernous sinus syndrome The pupil Optic nerve disorders Eyelid abnormalities Carotid artery disease Non-organic visual disorders Phakomatoses Ancillary clinical procedures Neuro-Ophthalmology Review Manual, Sixth Edition is a succinct text for all practitioners and residents in ophthalmology, neurology, and neurosurgery. A popular choice among colleagues for almost 30 years, this text is a must-have resource in neuro-ophthalmology.

"The major strength of this review manual is its excellent use of illustrations, anatomy diagrams and tables. Its point format makes it easy to read in a short period of time. Overall, this is a very good introductory textbook for residents in ophthalmology and neurology and can be used as a quick reference book by practitioners in either discipline#8230it is still the best-sized review book available on the topic for residents preparing for their in-training exams and will continue to be a popular choice for this purpose." Nurhan Torun, MD, FRCSC, Canadian Journal of Ophthalmology

About the Author Lanning B. Kline, MD, is a native of Edmonton, Alberta, Canada. He received his Bachelor of Arts degree from the University of Alberta and graduated from Duke University School of Medicine. He served an internship at Duke University Department of Medicine and a residency in the Department of Ophthalmology, McGill University, Montreal, Quebec, Canada. Dr. Kline completed fellowships in neuro-ophthalmology at the Montreal Neurological Institute and at the Bascom Palmer Eye Institute, Miami, Florida. Dr. Kline has been a faculty member in the University of Alabama Birmingham Department of Ophthalmology since 1979. In 1998 he became Professor and Chairman of the department, and in 2000 was appointed to the EyeSight Foundation of Alabama Endowed Chair in Ophthalmology. Dr. Kline is certified by the American Board of Ophthalmology, is a member of the North American Neuro-Ophthalmology Society, and a Fellow of the American College of Surgeons. He recently celebrated his 30th wedding anniversary with his wife, Ricki. Their two children, Aaron and Evelyn, are both professionally employed in California.
