**Nicola J. Petty DPT MSc GradDipPhys FMACP FHEA : Neuromusculoskeletal Examination and Assessment: A Handbook for Therapists, 4e (Physiotherapy Essentials)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Neuromusculoskeletal Examination and Assessment: A Handbook for Therapists, 4e (Physiotherapy Essentials):

Now in its fourth edition, this core textbook continues to provide a comprehensive, systematic guide to the examination and assessment of patients with neuromusculoskeletal dysfunction. The new edition continues with

Nicola Petty at the helm but she is now joined by a reputable team of specialized clinicians and academics who have contributed to individual chapters. Neuromusculoskeletal Examination and Assessment focuses on the development of technical and clinical reasoning skills involved in differential diagnosis of joint, nerve and muscle tissues. It is designed for physiotherapy/manual therapy students and their teachers but is also ideal for those in the first years of their practice as an educational support for patient care. Provides a logical approach to patient examination to enhance clinical reasoning Presents key concepts of leading therapists and researchers in the field of manual therapy Emphasizes a patient-centred approach Templated step-by-step sequence of illustrations and text creates an accessible tool for use in teaching and practice New 2-colour drawings and photographs visually demonstrate techniques
