M.D. Stephen A. Geraci, M.D. Mary Jane Burton : Notes for the Academic Clinician before purchasing it in order to gage whether or not it would be worth my time, and all praised Notes for the Academic Clinician:

0 of 0 people found the following review helpful. a great starting place for a fellow finishing training and considering staying on to join the facultyBy Margaret HarrisonMy daughter is in this position. I've led a career as a dedicated teaching hospital / voluntary faculty cardiologist for 40 years and have been asked by my daughter to review her

contract for University clinical faculty appointment. This book gives me greater insight in understanding how important career decisions are at this time in defining her direction. I advised her to find a mentor but until reading this book I didn't grasp the full significance of this choice. I appreciate the frankness as well as the wisdom from experience of Dr Geraci . He truly has "been there and done that" I'm still unsure of the applicability of the tenure track in clinical non academic positions and could use more information about that issue . The section on formatting for medical writing is probably not needed by most who have completed a fellowship because of their writing experience.
Eric E. Harrison M.D.

In today's world of growing demands and shrinking resources, academic clinicians often find themselves lost amidst the chaos of academic health centers and medical school programs, trying to make the best decisions for their career growth while satisfying the myriad work requirements of everyday life as a health care provider, teacher, investigator, and administrator. Notes for the Academic Clinician provides useful, practical advice in a number of relevant areas, from making career decisions and finding mentors, to executing an effective oral presentation and networking at professional meetings. Physician faculty in all medical disciplines can glean helpful guidance from this book, and hopefully move their careers forward with objective success and ongoing personal satisfaction.
