Barbara Acello : Nurse Aide Exam Review Cards CD Package (Test Preparation) before purchasing it in order to gage whether or not it would be worth my time, and all praised Nurse Aide Exam Review Cards CD Package (Test Preparation):

3 of 3 people found the following review helpful. Very Helpful!By T. JakubowskiThese cards were extremely helpful in studying for the Nurses Aid Exam. I felt like the exam was very easy after studying with these cards. The questions were pretty detailed, and covered a wide range of topics, including dressing, charting, vital signs, and what to look for in cases of bed sores and other problems. I loaned these cards out after my test, and I will probably not get them back, but thats ok, because I hope they can help other people and get passed around :)0 of 0 people found the following review helpful. Five StarsBy CustomerExcellent book!!!!0 of 0 people found the following review helpful. Nurse Aide ExamBy M. PopeI used these cards when getting my CNA license and would recommend these cards if you are self studying for your exams.

This set contains over 270 flash cards for students preparing to take the state nurses aide certification exam. Each card contains a sample question on the front and the question category, answer and answer rationale on the back. Questions are drawn from several general categories: daily care activities, basic nursing skills, restorative services, psychosocial care skills and nurses aide role. Cards are conveniently sized and portable.

These cards will be very helpful to the student to review the text after the course is completed. The manuscript and its emphasis are very appropriate for nursing assistants who will be studying for the exam. It is a great resource for review. I think the information is covered appropriately and the rationale assists the student to understand and grasp the correct answer. The content within the units is organized logically. I will absolutely consider the review cards for my program; for the success of the student in passing the CNA Exam. I felt [the author] did an excellent job of covering areas we are tested on in Florida. I think this idea is great-something every nursing assistant could use to help them prepare for the State Exam. About the Author Barbara Acello has worked in long-term care for more than four decades. Currently a nurse consultant and educator, she owns a school for nursing assistants, where she helped to write and develop mandatory state curricula for nurse aides and EMTs. She has also written and contributed to dozens of textbooks, instructor guides, quick reference guides, and supplemental instructional materials for health care personnel. Formerly a practicing nurse, Ms. Acello was also a director of nursing and a long-term care facility consultant. Her interests and expertise include clinical geriatrics, resident safety, pain assessment and management, restraints, pressure ulcers, and infection control. She is particularly committed to improving working conditions, education, and professionalism for personnel in the long-term care industry.
