James E. Allen PhD MSPH NHA IP : Nursing Home Administration, Sixth Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Nursing Home Administration, Sixth Edition:

0 of 0 people found the following review helpful. It would be better to purchase material through NAB rather than off By Thatgirl! This book may give some management tips once you have your license, but it will not help you with the test. It is mostly fluff and the material in it is not helpful with the test after studying it for 8 months. I think the people who state they passed the test with the help of this book must have taken a course and purchased all of the materials and practice test through NAB. I have a management degree and masters in gerontology and knew this book inside and out with no luck on the test which cost \$375. It would be better to purchase material through NAB rather than off . Good Luck! 3 of 3 people found the following review helpful. Great study material By Tori_1I used this book as well as the companion review guide to study for my NHA exam. This is the only material I used other than reading the state

operations manual sections that were referenced in the book (those sections are long but necessary reading). It covered the topics necessary to pass the exam and while I spent a great deal of time studying and learning the material presented I passed the exam with a very high score. I was nervous prior to the exam for not purchasing other materials from which to study but it really was not necessary. 5 of 5 people found the following review helpful. Very informative! By ADotFDot Although this book covers much more than what you need to know for the NAB exam, it is a good read and very worth purchasing for test preparation purposes and for your professional library. It definitely helped me pass the exam the first time around.

Named a 2013 Doody's Essential Purchase! The sixth edition of Nursing Home Administration contains essential information to prepare an individual for licensure and employment as a nursing home administrator. This book addresses all regulatory pieces of information to provide readers with an overview of the entire process of managing a nursing facility. This edition has been updated to reflect the most accurate and up-to-date information to reflect new legislation and regulations passed since previous edition in 2008. This textbook serves as a roadmap for studying and understanding all the various requirements-management, human resources, finance and business, industry laws and regulations, and patient care. It demonstrates how all components fit together to form the coordinated activity set required of a successful nursing home administrator. Key Features: Formatted according to licensing examination and guidelines of the National Association of Boards of Examiners of Nursing Home Administrators New federal guidelines to surveyors New resident assessment instrument Updated figures and tables New life safety code inspection processes New ICDM-10 (International Classification of Diseases-Modified) Sub-set of federal forms included in appendices Web references to enable the reader to successfully navigate the nursing home administration field

From the Back Cover 24 About the Author James E. Allen, PhD, MSPH, NHA, IP, is an associate professor of Health Policy and Administration Emeritus at the University of North Carolina at Chapel Hill and president of LongTermCareEducation.com, a national resource website for information on the long-term care field. He has 30-plus years of experience in teaching and conducting research in the field of health care administration.
