Kaplan Test Prep : OAT 2017-2018 Strategies, Practice Review with 2 Practice Tests: Online + Book (Kaplan Test Prep) before purchasing it in order to gage whether or not it would be worth my time, and all praised OAT 2017-2018 Strategies, Practice Review with 2 Practice Tests: Online + Book (Kaplan Test Prep):

He just took the OAT yesterday and said this book really prepared him. The practice exams (he completed two) are very similar to the real test, down to the colors and format on the computer screen! Said this prep was essential to not only learn material but practice timing. Used the "cheat sheet" review inserts that came with this book along with those he made himself for last minute review. Wish he would have had more time to go through ALL

of the review questions in the book, as perhaps this would have raised his score. He got a 320 on the exam. 0 of 0 people found the following review helpful. Only Book I Used By Matt Used only this book for studying for the OAT. Mastering the content in this book led to a great score! The included online practice exams were helpful, too. 0 of 0 people found the following review helpful. This book is NO different than the 2015 OAT book ... By Anastasiya Z. This book is NO different than the 2015 OAT book I purchased a few years ago. This book also does not have a section for the newly changed QR section of the OAT. A bit disappointing that this is called a new version.
