Kathryn A. Gill, Misty H. Sliman, Peter W. Callen : Ob/Gyn Sonography Review: A Review for the Ardms Obstetrics Gynecology Exam before purchasing it in order to gage whether or not it would be worth my time, and all praised Ob/Gyn Sonography Review: A Review for the Ardms Obstetrics Gynecology Exam:

1 of 1 people found the following review helpful. Helpful but few questions wrong/mis leadingBy KaylaI found this book helpful in the last stages of my studying. I didn't find multiple questions to be wrong though according to text books that I had. I attended the Edelman conference and highly recommend that along with this book. I just passed my Obgyn boards for ARDMS wirh a pretty decent score :-)

0 of 0 people found the following review helpful. Five StarsBy Jonathan KesserGreat item, highly recommend.

Test yourself before the ARDMS tests you! *OB/GYN Sonography Review* illuminates the facts and principles on which you will be tested, hones your test-taking skills, and reveals your strengths and weaknesses by exam topic. Based precisely on the ob/gyn specialty exam outline published by ARDMS, this new review contains 520 registry-like questions together with answers, clear explanations, and quick references for further study. More than 100 image-based cases prepare you to tackle the images on the exam. Coverage includes obstetrics (first through third trimesters, placenta, assessment of gestational age, and complications), gynecology (normal pelvic anatomy, physiology, pediatric, infertility/endocrinology, postmenopausal, pelvic and extra pelvic pathology), patient care, patient preparation, and technique (all in the same proportion as the exam itself). Why are our mock exams so popular and effective? Because they contain the same kinds of thought-provoking questions you will find on the real exam! Approved for 12 hours of continuing medical education (CME) credit by the Society of Diagnostic Medical Sonography (SDMS).

From the Publisher Ready to . . . SCORE? You Can! *Davies 123 Step Ultrasound Education Test Preparation* is a proven, systematic, step-by-step means of preparing for the registry examinations that works, not only for test preparation, but also for clinical education, cross-training, and classroom education. Here's how . . . *Step 1 Texts: CME-approved didactic texts* cover and explain everything on the exam content outlines published by the ARDMS, concisely and precisely, with illustrations and references. They do such a good job that they are used in ultrasound programs throughout the country and by professionals for cross-training and continuing medical education. *Step 2 Mock Examinations: Test yourself!* Our well-known, registry-like practice exams identify your strengths and weaknesses by exam topic, familiarize you with the format and style of the registry exams, and measure your progress as you study. (Now available in both book CD-ROM versions!) *Step 3 QA Memory Skills Flashcard Drills: Great confidence builders!* ScoreCards allow you to reinforce the concepts and principles covered in Step 1 reviews as well as those you must know to answer the more complicated registry-style questions in the Step 2 mock exams. *Life Is A Test . . . Pass It!* About the Author Kathryn A. Gill, MS, RT, RDMS, has been practicing, teaching, and writing about ultrasonography for more than 20 years. She is Program Director of the Institute of Ultrasound Diagnostics in Spanish Fort, Alabama. Kathy became a Fellow of SDMS in 1993 and a Senior Member of AIUM in 1996. She lives with her family in Daphne, Alabama, where she teaches, practices, and writes. Misty H. Sliman, RT, RDMS, is Clinical Director of the Institute of Diagnostic Ultrasound and a practicing sonographer with Medscan in Spanish Fort, Alabama. Previously, Misty was affiliated with the Perinatal Unit at the University of South Alabama, Springhill Memorial Medical Center, and Mississippi Baptist Medical Center. Peter W. Callen, MD, is Professor of Radiology, Obstetrics, Gynecology, and Reproductive Sciences at the University of California Medical Center, San Francisco. He is Editor of the renowned textbook *Ultrasound in Obstetrics and Gynecology*, now in its 5th edition, and the author of numerous other contributions to the literature.
