From Wiley-Blackwell : Occupation Centred Practice with Children: A Practical Guide for Occupational Therapists before purchasing it in order to gage whether or not it would be worth my time, and all praised Occupation Centred Practice with Children: A Practical Guide for Occupational Therapists:

This book draws on contemporary occupational therapy theory and research to provide occupational therapy students

and clinicians with a practical resource on implementing occupation centred practice with children. Each chapter has specific objectives and uses case studies to demonstrate the clinical realities and applications of each of the topics addressed. Best practice guidelines are provided along with a summary of recommendations drawn from the relevant theories, occupational therapy philosophy and existing research. The book aims specifically to be practice based.

"If you want a substantial paediatric text to support the application of occupation centred approaches then buy this book." (British Journal of Occupational Therapy, 1 January 2012) nbsp;About the AuthorSylvia Rodger, Associate Professor and Head of Division, Division of Occupational Therapy, The University of Queensland, Brisbane, AUSTRALIA.
