By D Roark It is not completely right. You are using CPT Codes for procedures that are done in the hospital. You should be using ICD-10-PCS codes for Inpatient Procedures... Needs to be UPDATED...

18 engaging modules cover diverse specialties and simulate the work experience of a multi-specialty medical practice. 540 total reports, including 30 reports in each module, progress from easy to more difficult cases. Answers and

rationales help you understand the reasoning behind a proper coding sequence. Trial and practice exams in each module help you track your comprehension and progress. Dual coding addresses the transition to ICD-10 by providing coding answers in both ICD-9 and ICD-10. Program locking enables you to keep patient information private while away from your desk. Building a printable portfolio of results provides examples of your work and demonstrates proficiency to potential employers. Updated content includes the latest coding information available, promoting accurate coding and success on the job.
