**World Health Organization(WHO) : Our Planet, Our Health: Report of the Who Commission on Health and Environment** before purchasing it in order to gage whether or not it would be worth my time, and all praised Our Planet, Our Health: Report of the Who Commission on Health and Environment:

WHO report from 1992 detailing impact on human health from various development strategies, including in food and agriculture, water, energy, industry and urbanization. Recommendations are given for reaching a sustainable basis for health for all in an environment that promotes health and awareness by all individuals and organizations of their responsibilities for health and its environmental basis.
