Duane C. Abbey : Outpatient Services: Designing, Organizing and Managing Outpatient Resources (Hfma Healthcare Financial Management Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Outpatient Services: Designing, Organizing and Managing Outpatient Resources (Hfma Healthcare Financial Management Series):

The rapid development of outpatient services is not only marked by a general increase in volume, it is also characterized by a wide diversity of types of services, providers, locations and a variety of payment systems. This book aims to provide a comprehensive guide to designing and providing such services, including organizational considerations and payment systems. Topics covered include how to analyze each service line and provider through cost-benefit analysis, resource and feasibility analysis, the various organizational approaches to designing an

outpatient facility, and a discussion of the different payment systems utilized for outpatient services.
