M J Darby, R E Hyland : Oxford Handbook of Medical Imaging (Oxford Medical Handbooks) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Oxford Handbook of Medical Imaging (Oxford Medical Handbooks):

0 of 0 people found the following review helpful. excellent book thank you very much!!!By Customerexcellent book thank you very much!!! extremely quick shipping

As medical imaging plays an increasingly important role in the diagnosis and treatment of patients, it has become vital for medical practitioners to have a thorough understanding of the many complicated techniques available. The Oxford Handbook of Medical Imaging is a practical quick-reference guide to all the modalities and techniques of imaging for medical and surgical conditions. Practical and easy to use, the handbook covers all common diagnoses, symptoms, and conditions. Medical and surgical emergencies are covered, along with explanations of the rationale behind each imaging technique and the common questions likely to be asked. Fully illustrated throughout with example images from real cases, the indications, merits, and drawbacks of all the various modalities are explained in quick bullet points for ease of understanding and quick reference. Each chapter (where appropriate) is split into handy sections on differential diagnosis, presenting symptoms, and common conditions, so you will always have the most relevant information at your fingertips. This handbook is sure to be a constant companion for all radiographers and students, junior doctors, clinicians, and anyone who works with medical imaging.

The text is lavishly illustrated throughout with high quality labelled images with explanations. The editors should be congratulated for compiling such an indispensable handbook for clinicians, radiology specialist registrars, medical students, radiographers, nurses and anyone involved in imaging. * British Journal of Hospital Medicine *About the AuthorM J Darby: Qualified 1991, FRCR 2000, consultant radiologist at Leeds Teaching hospital since 2001R E Hyland: Qualified 1999, consultant radiologist at Leeds Teaching Hospitals
