**Bryan E. Bledsoe, Robert S. Porter, Richard A. Cherry MS EMT-P : Paramedic Care: Principles Practice, Vol. 1: Introduction to Paramedicine** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Paramedic Care: Principles Practice, Vol. 1: Introduction to Paramedicine:

0 of 0 people found the following review helpful. Purchased the kindle version! By Subzero I'm a little disappointed, for some reason the text to speech function is not available for these text books. As a person with a learning disability I find that listening to the text to speech while I read along helps me with both keeping my place while I read and retention of the material. The whole reason I own a Kindle Fire is so I could get these books and use the text to speech. No information I found in reviews or web research I did lead me to believe it would be turned off in this version. If an update or change occurs that changes the function, I will update this review. I won't judge the book on its content since I am not yet a paramedic and am not qualified to judge it. 0 of 0 people found the following review helpful. Good

Review of the BasicsBy KevinI've been a prehospital provider for ten years now I'm preparing to take the CCEMTP-C FP-C tests. I used the Brady paramedic books in my paramedic class chose to purchase the newest edition to review the basics. The introductory book in the series is a quick read. I was pleased to find a section on research the emergence of evidence-based medicine in EMS. In my opinion, this textbook is a good resource for both prospective/active paramedic students veteran medics looking for a review.0 of 0 people found the following review helpful. Five StarsBy Tiana45Good book in studying for class

Paramedic Care: Principles Practice, Fourth Edition, is intended to serve as a foundational guide and reference to paramedicine. Developed to stay ahead of current trends and practices in paramedicine, all seven volumes are based on the National EMS Education Standards and the accompanying Paramedic Instructional Guidelines. Volume 1, Introduction to Paramedicine, provides paramedic students with the principles of advanced prehospital care and EMS operations, including an overview of the various aspects of paramedic practice as well as an introduction to workforce safety and wellness, EMS research, the EMS role in public health, legal and ethical considerations, and EMS system communications and documentation.

From the Back CoverVolume 1: "Introduction to Advanced Prehospital Care" (includes Airway Management) Volume 2: "Patient Assessment" Volume 3: "Medical Emergencies" Volume 4: "Trauma Emergencies" Volume 5: "Special Considerations / Operations (includes Assessment-Based Management) Dr. Bryan E. Bledsoe, lead author of the classic pre-'98 curriculum text "Paramedic Emergency Care," along with co-authors Robert Porter and Richard Cherry, has woven together contributions from field experts to provide detailed, yet student-friendly texts that will set the standard for paramedic education for years to come. In developing this series to meet the new curriculum, the goals were threefold: Comprehensive coverage. The program includes "all" materials required for the new U.S. DOT curriculum and, where appropriate, expanded information. Accuracy. The material reflects the best and latest in scientific and medical practice, written and reviewed by experts. Appropriate level. Concepts and terminology are clearly explained. Beginning at the level of the new student and progressing through the development of new and advanced concepts, this series will provide the student with a broad background of knowledge and a firm grasp of how to apply it to paramedic emergency care. About the AuthorBledsoe is an emergency physician with special interest in prehospital care. Richard A. Cherry is Assistant Residency Director and Clinical Assistant Professor of Emergency Medicine at SUNY Upstate Medical University in Syracuse, NY His experience includes years of classroom teaching and emergency fieldwork. He is the author of several Brady EMS titles. Joseph J. Mistovich, M.Ed., NREMT-P, is Chairperson and Professor of the Department of Health Professions at Youngstown State University in Youngstown, OH. He has been in EMS for 20 years and is the author of many Brady EMS titles.
