Barbara Aehlert : Paramedic Practice Today: Above And Beyond, Two-Volume Set before purchasing it in order to gauge whether or not it would be worth my time, and all praised Paramedic Practice Today: Above And Beyond, Two-Volume Set:

2 of 2 people found the following review helpful. Five Stars By Customer paramedic school sucks 4 of 4 people found the following review helpful. A Monster Book By Ryan P Murphy I bought this book for my paramedic class. It's HUGE. However, it is very thorough. I really like the way the chapters are set up. It gives you an idea of what you're looking for in the chapter before you get started, that way you're not reading aimlessly trying to figure out which topics are the "important ones." Each chapter's "objectives" tell you the material from the chapter that would be on the NREMT-P Exam. I have read some crappy text books and this is NOT one of them. 0 of 0 people found the following

review helpful. Fast delivery however, some of the material written should ...By Stacey OhoFast delivery however, some of the material written should have been proofread more carefully. I've found a few errors either in the subject matter and test bank.

Providing the tools you need to succeed, the two-volume set of Paramedic Practice Today: Above and Beyond offers a solid foundation for paramedic practice and is now updated to reflect the 2010 emergency cardiovascular care guidelines! A conversational, easy-to-read style simplifies topics and helps you master National Standard Curriculum objectives and meet the new National Education Standards. Each printed volume includes a companion DVD-ROM with step-by-step videos demonstrating the skills in the textbook and more. Because this two-volume set corresponds to the National Registry of EMTs National EMS Practice Analysis, it provides you with the best possible preparation for the National Registry exam.
